3.	Approximately 600 North Korean officers who were selected from various North Korean units were sent to a staff school at Manchuria for three months' training with Chinese Communist officers. This school was established to train Chinese Communist and North Korean officers. The instructors are all Soviets. The officers returned from North Korea 50X1-land expected assignments to all North Korean units. A change in North Korean operations is expected within one month. An increase of guerrilla activity by the North Koreans farther south is planned.	50X1-HUM 50X1-HUM 50X1-HUM HUM 50X1-HUM
40	the people of P ⁿ yonggang (127-18, 38-25) area ordered a move to Ich ⁿ on (126-53, 38-30) area and Chinese Communist and North Korean troops began building strong military positions in the P ⁿ yonggang area immediately. the above troops (approximately 50,000) moved north from the P ⁿ yonggang area and were replaced by new Chinese Communist and North Korean troops approximately 30,000. The latter troops moved from Antung after training and reorganization by the Chinese Communists in manchuria. Sixty percent of these troops had been conscripted from the local population during the North Korean occupation of the Republic of Korea. This 30,000 group was well armed and had high morale. All these troops had new uniforms and	50X1-HUM 50X1-HUM 50X1-HUM
5.	the officers were canvas shoes. The 50,000 group had badly wern uniforms and 60 percent were unable walk. Forty percent of the 50,000 group was suffering from an unknown epidemic disease; their morale was low but they were willing to die instead of going home. in P*yonggang, Ich*on, and east coast areas, where one fifth of the villagers have remained, many are suffering from an epidemic disease which is fatal after a fever of one month. The North Korean authorities are unable to halt the disease and are making little attempt to do so.	50X1-HUM
56	a big military buildup is expected in the far north of Korea from the Chinese Communists in Manchuria.	50X1-HUM 50X1-HUM
